Welding Tools for the Professional

A Smart Approach

Parker Torchology is shaped by people with vision, a passion for improvement and a belief in delivering the very best Welding and Cutting Torch Range in the World.

We expect a great deal from our products, so we ask a lot of ourselves and our engineers.

Our mantra: **Innovation, Technology, Performance.**

DNA

Design and Engineering excellence are at the core of everything we do.

Every torch we build is driven by our relentless pursuit of perfection.

Premium Features

At Parker Torchology we do things differently, we strive to solve your problems with the perfect product to suit your needs. We create smart product features encased in cutting-edge design to ensure you always have the best tools to hand.

Production

A fusion of precision production engineering, our bespoke processing techniques and a fanatical attention to detail ensures every welding torch we produce is worthy of the Parker Torchology name.

Testing, Testing, Testing

It takes patience to develop a new product, it's a lot more than a great idea.

Product development is an iterative process, trying something over and over, changing one small variable at a time.

We build endless prototypes and test pieces that undergo months of rigorous testing. Only once a product has passed up to 88 different test procedures, with every single part tested separately do we consider our latest designs ready for market.

Partners

Our customers and business partners play a vital role in our development. With the core aim to strive together, we work with end-users, distributors and academic institutions alike.

As a result we share fundamental values in order to succeed in our respective market places, supporting economic growth and collaborative opportunities with others.

A Bright Future

Technology doesn't stand still, which is why we are constantly innovating to bring you the best products on the market.

Our strong vision and focused innovation strategy, not to mention our passion to revolutionize the industry, ensure that Parker Torchology is a byword for excellence.

We Talk Torches

Contents

Machine Side Connectors	6
Plazlok™ Plasma Connection Systems	8

Cable Connectors	
Cable Plugs	8
Cable Sockets	9

Key Features:

- Based on international “Euro” style
- Suitable for metal and moulded panels

Rating

Part Number	Description	Amps	Duty Cycle
PB7001	Machine Side Connector Standard	600	100%

Part Number	Description
PB7002	Machine Connector Cover Standard

Key Features:

- Compatible with international “Dinse” style
- Easy mount and cable attachment system
- High flashover resistance for HF applications
- Guaranteed 55° lock for consistent locking position
- Suitable for metal and moulded panels

All items rated @ 60% in accordance with EN60974-12.

Brass Guide

Part Number	Description	Material
PAM0034	Brass Guide 46mm M12 x 1.0	Brass

Part Number	Description	Material
PAM0035	Brass Guide 15mm M12 x 1.0	Brass

Part Number	Description	Material
PAM0038	Brass Guide 39mm M12 x 1.0	Brass

Part Number	Description	Material
PAM0065	Brass Guide 35.5mm M12 x 1	Brass

Capillary Tube

Part Number	Description	"L"	Material
PAM3013	Capillary Tube	101mm	Brass
PAM3014	Capillary Tube	200mm	Brass
PAM3018	Capillary Tube	131mm	Brass
PAM3065	Capillary Tube	124mm	Brass

Soft Wire Liner Guides

- Suitable for Teflon, Carbon and Polyamide soft wire liner systems.

Part Number	Description
PB15L_4.4 x 200	Wire Guide for Core Liners upto 4.0mm

Key Features:

- Single interface solution with 9 control pins
- High flashover resistance for HF applications
- Suitable for Air and Liquid-Cooled applications
- Suitable for metal and moulded panels
